Custom door designs are available upon request. Any garage door alterations beyond the normal Southern Ideal Door Standard Signature Collection Door styles will be subject to additional costs.

## The Signature Collection of Carriage House Doors

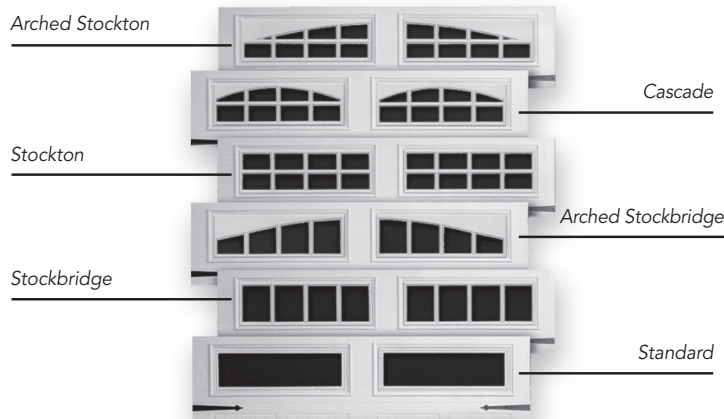

The Signature Collection of Carriage House Doors will add beauty and value to any home. Our experienced team of designers and craftsmen insure the highest quality and attention to detail in the construction of the Signature Collection. Each door is manufactured with heavy 24 gauge steel utilizing the best and most durable overlay trim product available. This product is moisture, rot, and termite resistant.

All Signature Collection Garage doors are insulated by either using polystyrene with vinyl backing or CFC free expanded polystyrene insulation sealed between

two sheets of Galvanized steel known as a sandwich door. Each door is ready to paint and we guarantee our trim products not to warp, twist, or breakaway from the steel structure. We stand behind our Signature Collection with a limited Lifetime Warranty.

You will enjoy the beauty of our Carriage House Doors for years with low maintenance.

We offer the option of Custom Designs where you can create your own personal design or modify ours to accommodate your specific needs.

We provide several standard window options along with decorative Hinges and Handles that are sold separately.
